03 EMPLOYMENT HISTORY

Jan 2019 — Aug 2019

Kathmandu

Junior Web Developer at Infotech Nepal

Worked as a junior web developer in my teacher's office. Handled various Wordpress websites and designed various websites from simple landing page to advance customized page.

Jan 2020 — Present

Freelancer at Freelancer.com

Created various websites from simple landing page to full page stunning websites with various modern technologies. Have a good command in communication with clients.

04 PROJECTS

React Himalayan Resort

Created Himalayan Resort website with ReactJS & Bootstrap. Hosted in Netlify with the help of contentful. It utilizes React features like Browser Router, React Context Api, react-icons, remote Api, etc

React Corona Tracker

Developed a corona tracker web app with the help of React.js using the API. It represents data into beautiful diagrams for user understanding.

Bootstrap Template

I also use modern frameworks like bootstrap, fontawesome, google fonts, JS libraries to create stunning and rapid development of websites for production ready.

HTML & CSS Template

Created many websites with HTML, CSS and JS only. I have very deep knowledge in CSS and can create very modern looking website without any frameworks.

Result Management System

Created a very low level program, Result Management System using C Language with a features like CRUD without any third party libraries.
